

Quality Policy

In HSP Worldwide we are committed to:

- Pursue long term growth and profitability through the delivery of high-quality services.
- Aim towards being objectively recognized by our customers as having the highest quality performance in our industry.
- Deliver high quality in all the activities viz. supply of equipments and services to oil & gas, process, marine, subsea and defense industry, through safe and efficient operating processes.
- Improve our processes and the effectiveness of our management system.
- Manage and control risks systematically.

Through exercising our core values and principles in everything we do, we utilise continuous improvement and quality management to maintain and deliver a consistent performance to our company.

To fulfill our commitments we:

- Apply high standards for well maintained, efficient and innovative equipment.
- Maintain a world-class management system containing all our processes and procedures.
- Comply with the ISO 9001:2015 standard.
- Comply with applicable laws and regulations.
- Have a structured approach to embedding risk management into our processes.
- Promote a culture that supports our commitment to quality management.
- Coach our employees in understanding how their activities influence the quality of services.
- Require key suppliers and contractors to manage quality in accordance with this policy.
- Rigorously monitor our performance & relentlessly pursue improvements in every aspect of our work.
- Seek feedback from employees, customers, regulators on ways to improve.
- Drive continual improvement of quality through open communication and innovative thinking

Our objectives are to achieve ZERO accidents & ZERO incidents at office and workshop.

HSP Worldwide Sustainability Framework

Together with the Health, Safety, Security and Environment Policy and the Corporate Social Responsibility Policy, the Quality Policy constitutes the HSP Worldwide Sustainability Framework.
